MINIMUM SERVICES

The Minimum Services charge represents the minimum non-declinable services required to facilitate the disposition of a deceased person, whether by cremation, burial or hydrolysis (also known as “aquamation”).

This minimum service charge is applicable to every family we serve and includes transferring the deceased from the place of death (or Coroner’s Office, hospital, airport, etc.) to our holding room, where the deceased will be placed in a casket* of your choosing and securely held until the necessary documentation is completed for burial, cremation or hydrolysis, as applicable. Once the required documentation is ready (i.e. death has been registered and if applicable, the coroner’s certificate for cremation / hydrolysis has been obtained), the deceased is transported (*Final transfer vehicle) in a service van or SUV to the cemetery, crematorium, or hydrolysis facility at the earliest practicable opportunity or at a scheduled

time, as applicable. Pacemaker removal, if applicable, is included.

Additional fees may apply for mileage beyond 50 km, and pallbearers (burial only).

ADDITIONAL SERVICE OPTIONS

We offer the following additional services, which are optional:

Additional body preparation services

It is our policy that human remains be identified whenever possible. The identification may be made by anyone who knew the deceased, including a relative, friend, neighbour, co-worker, or clergy person. While identification of a body is possible with the minimum required preparation, you may wish to consider opting for “basic preparation of remains” or embalming, as it might afford a more peaceful final viewing experience. Embalming is not legally required but may be recommended to preserve the body between the time of death and final disposition. One of our funeral directors will be able to guide you on preparation options and make recommendations based on the condition of the body and the expected service needs.

Visitation

These are informal gathering periods that allow family and friends to come and pay their respects and offer comfort to a grieving family. Suggested visiting hours are (2-4 and 7-9).

Funeral services

This includes services, rites and ceremonies with the body present in a casket. A funeral service can be religious or non-denominational and can be held in various places, including in our chapel, at a place of worship, a venue such as a club or hall, or at the graveside.

Memorial services or celebrations of life

This is a service to commemorate the deceased, which takes place after the body has been cremated or hydrolyzed. The cremated / hydrolyzed remains may or may not be present, as preferred by you; a framed portrait and personal mementos might also serve as a focal point during the memorial service.

Receptions

We offer a beautiful facility in which families may gather and receive guests for a luncheon after the funeral or memorial service.

SERVICE PACKAGE OPTIONS

The service packages below are the ones most commonly selected by our families; however, many other options are available to you. One of our funeral directors can explain your options to you and help you create a unique service that meets your wishes and honours your loved one in a meaningful way.

CASKETS

The following caskets listed are those generally available. Additional options are available upon request. Unless otherwise noted, all caskets listed are standard adult size.

Minimum requirements for a casket:

For burial: The least expensive wood casket is suitable and is required by most cemeteries' by-laws for interment, in the interest of the health and safety of the workers involved in the interment process. A metal casket may also be used for burial. A growing number of cemeteries in Ontario offer "green" burials, which may consist of interment of a body without a casket. Since there is no legal definition for a "green" burial, it varies from one cemetery to another. For more information, please speak with one of our funeral directors, or visit www.greenburialcanada.ca.

For cremation: A body must be presented to the crematorium in a rigid, leak-proof casket that is made of a combustible material, such as wood or cardboard. Caskets containing non-flammable, hazardous material or chlorinated or fibre-reinforced plastic, other than incidental metal, cannot be used for cremation. We offer a selection of inexpensive caskets below that are suitable for cremation.

For hydrolysis: A casket is not used for hydrolysis (also known as "aquamation"). In some circumstances, a hydrolysable container or shroud may be required. For more information on this alternative method of disposition, please speak with one of our funeral directors, or refer to the [Bereavement Authority of Ontario's Consumer Information Guide](#).

Plus Size Cremation Container (Georgian Bay Cremation Service)	No Finish/Interior 82Lx30Wx16D	\$ 259.00

VAULTS & GRAVE LINERS (outer burial container)

Outer burial containers listed below are for standard adult size caskets. Oversize vaults are available to accommodate plus-size caskets. Price does not include grave set up and lowering device.

You do not have to purchase a vault, unless the Medical Officer of Health has made the use of vaults and grave liners mandatory in the entire cemetery. A cemetery operator may designate a specific area in the cemetery where vaults or grave liners are required; however, the operator must have another area where vaults or grave liners are not required, so that consumers have a choice. A vault or grave liner may be recommended when there are environmental conditions such as poor drainage, or for practical or aesthetic reasons.

URNS, KEEPSAKE URNS & URN VAULTS

You are not required to purchase an urn, keepsake urn or an urn vault (unless required by a cemetery's bylaws). When a body is cremated or hydrolyzed, the remaining cremated / hydrolyzed remains will be presented in a box that is suitable for interment or scattering as is. Nonetheless, we are pleased to offer the following selection of products in a range of prices and materials to suit your preferences. If the urn is to be placed in a columbarium niche at a cemetery, you must make sure the urn you select will fit. Please speak with one of our funeral directors for assistance. <https://www.gravurecraft.com/>

PAYMENT, FINANCING & FUNDING

For services at time of death:

Payment is due within 30 days of signing the contract, beyond which interest will be charged at a rate of 1.5%, which is equivalent to 18% per annum (APR). Payment may be made by cash, cheque, bank draft, or E-transfer. Payment plans are also available to meet most budgets. Financing charges apply to payment plans.

Financial assistance for funeral, burial, cremation/hydrolysis services is available through various governmental agencies, to those who qualify.

Pre-payment in advance of need:

For services that are being arranged pre-need, we offer two funding options when prepaying services or supplies:

Trust: You pay for the services and supplies at today's price and we will place your money in a trust account, where it will accrue interest until the prepaid contract is fulfilled (when the services and supplies are delivered). Pre-payment can be made by cheque or credit. Funds are held in trust in the purchaser's name.

Insurance: You may purchase an insurance or annuity policy through us, where the proceeds of the insurance/annuity policy will be used to pay for the services or supplies at the time they are delivered. Payment may be made by credit card or cheque for single payments. Time payment plans may be made by credit card or pre-authorized chequing. The policy is held in your name and assigned to the funeral home. Terms and conditions and cancellation policies are set by the Insurance Company.

Guarantee: When paid in full in accordance with the payment terms set out in the prepaid contract, the prepaid contract is guaranteed. The total payment(s) made plus interest/growth earned will be applied to the future price of the services and supplies. If the total payment(s) plus interest/growth earned are insufficient to cover the total future price of the prepaid services and supplies, we will absorb the difference as a loss. Any funds in excess of the total future price of the prepaid services and supplies will be returned or applied toward additional services, supplies and disbursements purchased at the time of need, as applicable. Conditions apply. Any changes to the prepaid contract may result in the prepaid contract being null and void and a new contract being executed with current pricing at the time changes are made.

Additional information about payment, financing and funding options is available upon request.
